Dear Jeff,

You and your staff are the "Real Deal" for effective and sustainable weight loss. All of my expectations were exceeded in your twelve week program. My 42 pound weight loss is terrific, but the 30% loss in body fat was an unexpected bonus.

Approximately five years ago my physician diagnosed a numbness in my feet as nerve damage known as neuropathy. The condition has no known cure or treatment and was thought to be irreversible. Over the years my condition became more pronounced and progressed to my hands. Since beginning the Vital Solutions program 99% of my feeling has been restored. I say, "Wow"!

I have participated in numerous other weight loss programs, but none can compare to my extraordinary experience with your company and staff. I enthusiastically recommend Vital Solutions MD for those individuals seeking a healthy way to lose weight.

Sincerely,

Joe S. Jackson
